For Registration or Course Information Contact:
Tori Miller-McLeod (910) 494-8210 NC4HoovesFarm@gmail.com www.4HoovesSMART.com

** Awareness Level course (Sept 27th only) attendees will receive an Awareness Level certificate and will have the pre-requisite course required to register for and attend the Operations Level course as a "hands-on participant" for an Operations Level certificate. In order to register for the Operations Level course (Sept 28th-29th) you MUST either attend the Awareness Level course on September 27th or have received a Awareness Level certificate from a previous course attendance within the past two years. If you cannot attend on September 27th then you may register to attend the Operations Level course as an "auditor" for a Awareness Level certificate which will qualify you to attend a future Operations Level course elsewhere for a Operations Level certificate. Priority for Hands-On Participant (Operations Level certificate) will be given to emergency responders, followed by emergency animal response teams (i.e. SART / CART, private response units), veterinarians, and animal control officers until August 1st. After August 1st, should any Hands-On Participant (Operations Level certificate) spots for the Operations Level course remain open they will be assigned based on the order the registrations were received regardless of professional status..."first come, first serve". No refunds will be given for cancelled registrations unless cancelled by host.
